

Management System Policy Statement

Select Alloys & Material Limited has developed an Integrated Management System based on the requirements of ISP 9001 and ISO 14001. We place a high emphasis on continually improving our processes to exceed customer requirements.

We will comply with our legal and customer requirements and will strive to continually improve the performance, quality and environmental aspects of our processes and services by enhancing the skills of our staff and constantly seeking ways to diversify and meet new challenges.

As a company we are committed to ensuring:

- Compliance with all legal, statutory and regulatory requirements relating to the processing and supply of materials and services together with their environmental aspects.
- The setting of objectives based on the results of process reviews and their significance in relation to the quality and potential impacts on the environment and the continual improvement of the Integrated Management System.
- Management programmes implemented to achieve these objectives.
- Investment in a well-trained and motivated staff.
- All forms of wastes that do not add value to the customers are identified and eliminated or reduced.
- A close working relationship with our customers and stakeholders to achieve mutual understanding, commercial advantage and benefit.
- Continual prevention or reduction of waste and pollution to the environment, including when appropriate, consideration of life cycle perspective in relation to obsolete plant and equipment.
- Business Continuity and Disaster Recovery Plans are maintained and tested, (as far as practicable), to address identified risks and opportunities related to the IMS.
- Policies and objectives are regularly reviewed as part of the Management Review process.
- Effective communication of this policy to all company personnel because we recognise that all have a vital role in the implementation and maintenance of this policy and the IMS.

As an element of the organisation's on-going development, our goal is to enhance our reputation, and, to forge long-term, mutually beneficial partnerships with our customers and critical suppliers.

This policy Statement is available to the public and other interested parties on the company's website.
